

Eltham North SNT News

Here is an update on what the team have been doing over the last few months.

We have held several events around 'Violence against Women and Girls'. These have been held at the Eltham Centre and at the Greenwich University Southwood campus. We have also carried out increased patrols around our open spaces across the ward.

NOVEMBER 2021:

The team held a number of street briefings across the ward this has given Residents the opportunity to come and raise any concerns they have with us and for any crime prevention advice.

We also placed a number of Crime prevention stickers at all bike stands on Eltham High Street due to the number of bike thefts that happened in Passey Place.

DECEMBER 2021:

We had a number of Catalytic converter thefts across the ward. One Road in particular that was being targeted was Glenhouse Road. The team carried out unmarked patrols in the area at all different times of day and arranged for a street briefing to take place in January. This was a very good turnout.

We also carried out a Cuppa with a Copper at Costa Coffee

Some of the team were also on Eltham High Street daily doing High visibility patrols due to the increase of pick pockets in the area. We were making people aware of keeping their belongings safe while shopping.

Crime prevention advice was also given out and posted on Social media so that we could reach a wider audience

JANURARY 2022:

We had a successful litter picking event on Lovelace Green joined by Councillor Davis. This gave Residents the opportunity to come and speak with us and the team to be visible for a

Period of time in one location. It was lovely to speak with Residents. At first sight there didn't seem to be much litter but we still managed to collect a whole black sack full.

Upcoming events:

We are hoping to hold a Community Road Watch event after receiving complaints from residents about speeding vehicles in Rochester Way. We are in the process of organising this. For further information about upcoming events please check the following:
